

FTiC Flag

A few of us were privileged enough to participate in the flag making for the weekend events at Parkhill park Croydon for the FTiC bike ride, Picnic and Peace festivals.

On the day of the flag making workshop Penny, Ted and myself designed the layout and also managed start on painting the lettering of the flag. We were experts in art ourselves but we also took advice of others with their positive inputs. This was a real team collaborative effort.

The fantastic FTiC flag was completed over a 2 weeks period with the whole community taking an interest in our work. The photos are of our unique Double Sided Flag with our VIP guests.

At the FTiC bike ride and picnic we were honoured that the Mayor of Croydon come willingly to support our event as she had many other commitments on the day. She loved our efforts and even posed for photos with the flag and many guests and attendees who complimented FTiC efforts for bringing all faiths communities and groups together for this social event as well other information events and workshops that we hold that do make a real difference in Croydon which also has a positive ripple effect.

FTiC is very active in all sorts of ways to enhance the lives of many. So do join us and bring your talents to increase our teams capacity.
